尊敬的顧客：

幫助您的手錶/珠寶零售商保護環境，妥善回收您手錶中的鈕扣電池。專業珠寶商和手錶零售商最有能力更換您手錶中的電池，而不會損壞表殼和內部機芯。他們擁有專業工具和經驗，可以正確完成這項工作。沒有經驗的人可能會劃傷表殼並損壞防水密封 - 導致您的保修失效。以環保的方式回收手錶電池非常重要。手錶電池含有極少量的汞，這是防止電池腐蝕和損壞手錶所必需的。由於汞在密封的電池中，因此不會對您或您的手錶造成危險。但您需要妥善回收手錶電池。您的專業手錶/珠寶零售商是最適合為您做這件事的人。這些專業人員收集廢舊電池並通過有執照的廢物管理公司進行回收。

**WATCH INSTRUCTIONS &
2-YEAR LIMITED WARRANTY**

SETTING THE TIME

Pull out Crown all the way until it stops (position '3'). The second hand will stop. Rotate the Crown in either direction until desired time is obtained. Push Crown back in all the way (position '1') to re-engage time keeping. Second hand will begin to move.

NOTE: Never pull the Crown when the watch is wet.

SETTING THE TIME, DAY AND DATE

If your watch has a Date or a Day and Date Window, pull the Crown out to position '2' and turn the Crown in both directions until the Date showing is the day before the desired Date. Pull out Crown all the way (position '3') and turn the Crown to advance time. When midnight is reached, the Date will advance to the desired Date. Continue to turn the Crown until desired time is obtained. Push the Crown back in all the way until it stops (position '1') to re-engage time keeping.

WATER RESISTANCE

If your watch is water resistant, the watch is tested to be water resistant to 3-5 atmospheres (100-165 feet).

NOTE: Over time, the gaskets of the case may become worn and reduce the water resistance of the watch. A trained specialist should change the gaskets and the O-ring each time the battery is changed. To avoid any unwanted condensation, watches of all specifications (water resistant or not) should not be exposed to extreme temperatures such as cold or heat.

CHANGING THE BATTERY

Replace batteries when the watch becomes slow or does not operate, the readout darkens or does not appear or the backlight fails. Replace with same or equivalent.

NOTE: Battery change should be performed by a qualified technician who should also check the condition of the gaskets at the same time.

BATTERIES ARE NOT COVERED UNDER WARRANTY.

8. PIN & TUBE 2

In order to adjust links for this watch construction, you must switch the pin on the tool kit to the longest pin (approximately 10mm long) found under the tool kit. Then use the pin remover tool to push out the pins from either side of the links. After the desired links are removed, simply follow these steps in reverse to re-assemble the bracelet.

Dear Customer:

Help your watch/jewelry retailer protect our environment by properly recycling the button cell battery in your watch. Professional jewelers and watch retailers are best equipped to replace the battery in your watch without damage to the watch case and movement inside. They have the specialized tools and experience to do the job right. Inexperienced people can scar the case and damage the water resistant seal – voiding your warranty. It is important to recycle your watch battery in an environmentally safe way. Watch batteries contain very small amounts of mercury, which is required to prevent corrosion of the battery and damage to your watch. There is no danger to you or your watch from the mercury because it is in the sealed battery. But you need to recycle your watch battery properly. Your professional watch/jewelry retailer is the best person to do this for you. These professionals collect used batteries and recycle them through licensed waste management companies.

Do our environment and your watch a favor. Ask your watch/jewelry professional to replace your battery when it expires.
